

In Brief

Getting Rid of Junk Faxes

If you are fed up with receiving 'junk faxes' at work or at home, you should know that by joining the Fax Preference Service (FPS), you can normally stop (or at least make sure you receive fewer) unwanted communications.

Administered by the Office of Telecommunications (OFTEL), the FPS can be reached on 0845 070 0702. There is a 28 day 'cooling-off period' after which, if you still receive faxes, the sender may be prosecuted.
